November 2017

Dear Colleague:

On behalf of the Utility Contractors Association of Connecticut, I am writing to encourage you to join UCAC. UCAC membership would provide you and your company valuable benefits at a reasonable cost.

Based on feedback from members and attendance and sponsorship by contractors and vendors alike at programs and events, 2017 has been a very successful year for UCAC. From advocacy to networking and educational programs and events to our periodic newsletter, *In the Pipeline*, UCAC provides substantial value for members.

UCAC delivers quality substantive, educational programs and events to members. We continue to work closely with NUCA, which advocates vigorously for infrastructure funding at the national level. UCAC keeps members informed of vital information and public policy issues that affect their business. We are educating members to protect the public safety by avoiding damage to underground facilities and maintaining a safe construction site. All of this while planning an active schedule of programs and events, including additional education and training opportunities for members.

None of this would be possible without the support of our dedicated and loyal members. So, I encourage you to complete the enclosed membership application today to join UCAC. Please also consider referring a colleague to join UCAC.

Enclosed are the 2018 membership application and contractor dues schedule. Please complete the application and remit the appropriate dues for UCAC and NUCA.

Together, we can help build a stronger organization and the infrastructure that citizens deserve to move the industry forward.

Sincerely,

Kevin Plourde, P.E.
President
